## Happy Birthday!

Dear [Patient First Name],

As you turn 64, you are most likely approaching a very important milestone: your Medicare Journey!

In the coming months, you will be exposed to a large amount of Medicare insurance advertising. The amount of information may seem overwhelming, especially when you consider healthcare providers do not participate with all Medicare insurance plans.

Northeast Georgia Health System understands how important it is for patients to receive clear and easy-to-understand information about their Medicare benefits and insurance options. We introduce MedicareOnDemand, a resource offered by MedicareCompareUSA, a licensed insurance agency that supports Medicare beneficiary patients of healthcare providers.

## COMPARE MEDICARE PLANS

Dear [Patient First Name],

Your Journey to Medicare is nearly complete. Medicare initial enrollment is open to you three months before, the month of, and three months after your 65th birthday. If you are applying for a Medicare insurance plan, it is usually best to apply for coverage two or three months before becoming Medicare eligible, so your Medicare insurance plan becomes effective at the same time as Medicare would have.

It is important to choose a Medicare insurance plan that meets your specific healthcare needs and also includes all of your trusted healthcare providers. When you are ready to compare your options, MedicareOnDemand licensed insurance agents are standing by to assist by phone and personal appointment. These services are at no cost and without obligation.
